

Envelope cushions

Step 1

Cut 1 square the size of your cushion (add 1/4" seam allowance only if your using a particularly puffy cushion)

Cut 2 rectangles (for a 16" pad) make 16" x 10"

Add seam allowance if your using a puffy cushion pad but leave it be if not. To make bigger sizes add 2" to the width but keep the length the size of your pad i.e. 18 x 12 or 20 x 14.

Step 2

Hem down the two length that will be visible at the back/middle of your cushion

Step 3

Lay the two backs right sides facing over the front piece. Stitch all the way round the edge pivoting on the corners.

Step 4

Finish your raw edges with pinking shears or a zig zag stitch. Carefully cut away the excess fabric at the corner without snipping the stitches and turn in the right way.

TA DA!!!
